Subject: FW: transfer case 09/747,279

Hi,

Eddie Lefkowitz :) said I should speak with/email you about transferring a case (serial no. 09/747,279 -- PGPUB no. 20010013078) to class 365. I've already been told by an examiner in 2825 that the case, if accepted, would go to your art unit as the last digit of the application is odd. Could you please look up the PGPUB application using EAST or WEST, look at the claims, and let me know whether or not you think the application belongs to you?

Also, would you know what the procedure for transferring cases from the old PTO site to the new PTO site is?

Thank you.

2 of my examiners concur that this case is not acceptable for transfer to class 365 (AU2824), as no details of the memory ('cept claim 2) are set forth (we checked IFW, claims as filed).
Nominal recitation of a memory in a system w/ communication.
Suggest class 455, for system and communications set forth in claims. See your SPE for your TC transfer policy, which does not vary per physical location, as we have interoffice mail.
Thank you,

Richard T. Elms

Hi,

I'm an examiner in AU 2112 and I was told by Glenn Gossage, who works in class 711, to speak with you about a possible transfer to 365/189.05. The application serial no. is 09/747,279 and the PGPUB no. is 20010013078. Would it be possible for you to look up the PGPUB application using EAST or WEST, look at the claims, and let me know whether or not you think the application belongs to you?

Thank you.

Please contact to Art Unit 2824 for a possible transfer to class 365 because a last digit of this application is odd. Sorry to response your e-mail later because I just came back from an emergency vacation.
